PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience building production web applications, backend services, CI/CD pipelines, and Linux infrastructure. Proficient in TypeScript, JavaScript, Next.js, NestJS, Node.js, Docker, Nginx, GitHub Actions, and Proxmox. Experienced in REST API development, application deployment, SSL/TLS configuration, and blockchain infrastructure, including RPC, Archive, and Collator nodes on XODE network.

PROFESSIONAL EXPERIENCE

Software Engineer / Blockchain Engineer — Blockspace Corporation *December 2025 – Present*

- Develop and maintain production web applications using Next.js and NestJS, delivering features and performance improvements.
- Design and secure REST APIs with authentication, input validation, and backend security controls.
- Provision and manage Linux production servers on Proxmox, deploying containerized applications using Docker.
- Operate and maintain RPC, Archive, and Collator nodes on Substrate/Polkadot-based networks, monitoring synchronization and reliability.
- Configure Nginx reverse proxies, SSL/TLS certificates, and GitHub Actions CI/CD pipelines for automated testing and deployment.
- Collaborate with frontend, backend, and infrastructure teams to deliver production-ready software.

Software Engineer / DevOps — Rak Son OPC *August 2024 – November 2025*

- Developed responsive web applications using Next.js, React, and TypeScript, focusing on performance and cross-browser compatibility.
- Built backend services and REST APIs using NestJS and Node.js, integrating databases and third-party services.
- Implemented API authentication, input validation, and rate limiting to secure backend services.
- Deployed and maintained applications on Linux servers, managing environments, uptime, and server configuration.
- Built and maintained GitHub Actions CI/CD pipelines for automated builds, testing, and deployment.
- Configured Nginx for reverse proxying and production application hosting.
- Monitored application performance and database queries to identify and resolve bottlenecks.

Software Engineering Intern — Blockspace Corporation *January 2024 – April 2024*

- Assisted with developing and testing web application features under senior engineering guidance, while supporting blockchain node setup, monitoring, testing, and debugging.

PROJECTS

Blockscanner — Blockchain Explorer

- Built a blockchain explorer using Next.js and NestJS to retrieve, process, and display blockchain data, blocks, transactions, and network activity through a responsive web interface.

Xaver Mining — Blockchain Marketplace

- Developed a blockchain marketplace using Next.js and NestJS, implementing frontend features, backend APIs, and application workflows for managing blockchain-related products and services.

Vesting Platform — Token Vesting Application

- Developed a Next.js token vesting platform for managing vesting schedules, displaying token allocation details, and tracking scheduled token releases.

Multipayx API — Payment & On/Off-Ramp API

- Developed a backend payment and on/off-ramp API using NestJS and MongoDB, implementing REST endpoints, database integration, request validation, and transaction-related business logic.

Xode Nodes — Blockchain Infrastructure

- Deployed and managed Validator, Collator, Archive, and RPC nodes for a Substrate-based blockchain network, handling node configuration, synchronization monitoring, maintenance, and troubleshooting.

Sheloure Closet — Fashion Rental Platform

- Developed a **Next.js** fashion rental platform for dress catalogs, product details, rental information, and online booking.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Rust

Frontend: Next.js, React.js, HTML5, CSS3, Tailwind CSS

Backend: NestJS, Node.js, REST APIs

Databases: PostgreSQL, MySQL, MongoDB

DevOps & Infrastructure: Linux, Docker, Nginx, Git, GitHub Actions, Proxmox, FortiGate

Blockchain: Substrate, Polkadot, RPC Nodes, Archive Nodes, Collator Nodes

EDUCATION

Bachelor of Science in Computer Engineering — Southern Leyte State University, Sogod, Southern Leyte, Philippines
2020 – 2024 | Cum Laude
