KEN LEMUEL

SOFTWARE ENGINEER | DEVOPS | BLOCKCHAIN DEVELOPER

0994 074 5520 | kenlemsombreo.liloan@gmail.com | github.com/KenSombreo | linkedin.com/in/ken-lemuel-sombreo-a4ba9116a/

PROFESSIONAL SUMMARY

Software Engineer building scalable web applications and backend systems with **Next.js**, **NestJS**, and **TypeScript**. Develops secure **REST APIs**, deploys Linux production servers, and manages containerized infrastructure across CI/CD pipelines and Nginx configurations. Supports blockchain operations by maintaining **RPC, Archive, and Collator nodes** for reliable production delivery.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES	FRONTEND	BACKEND	DATABASES	DEVOPS & INFRASTRUCTURE	BLOCKCHAIN
• TypeScript • JavaScript • Python • SQL	• Next.js • React.js • HTML5 • CSS3 • Tailwind CSS	• NestJS • Node.js • REST APIs	• PostgreSQL • MySQL • MongoDB	• Linux • Docker • PM2 • Nginx • Git • GitHub • GitHub Actions • Proxmox • FortiGate	• Substrate • Polkadot • RPC Nodes • Archive Nodes • Collator Nodes

PROFESSIONAL EXPERIENCE

Blockspace Corporation December 2025 – Present

Software Engineer

- Develop and maintain scalable web applications using Next.js and NestJS.
- Design secure backend services and REST APIs.
- Deploy Linux production servers and containerized applications.
- Manage blockchain infrastructure including RPC, Archive, and Collator nodes.
- Configure Nginx reverse proxy, SSL certificates, and CI/CD pipelines.
- Collaborate with cross-functional teams to deliver high-performance software.

4Nexgen August 2024 – November 2025

Software Engineer

- Developed responsive web applications using Next.js and React.
- Built backend services using NestJS and Node.js.
- Optimized application performance and database queries.
- Collaborated to deliver production-ready features.
- Supported application deployment and maintenance.

Blockspace Corporation January 2024 – April 2024

Software Engineering Intern

- Assisted in developing web applications.
- Gained experience with blockchain node infrastructure.
- Assisted in testing and debugging.

PROJECTS

Blockscanner	– Blockchain explorer built using Next.js and NestJS for viewing blockchain data and transactions.
Xaver Mining	– Blockchain marketplace platform developed with Next.js and NestJS.
Vesting Platform	– Token vesting application built with Next.js.
MultipayX API	– Backend payment and ramp API developed using NestJS and PostgreSQL.
Sheloure Closet	– Modern fashion rental website built using Next.js.
Xode Nodes	– Managed validator, collator, archive, and RPC nodes.

STRENGTHS

• Problem Solving • Database Design • Team Collaboration • System Design • Fast Learner • DevOps • Continuous Improvement • Linux Administration • Adaptability

EDUCATION

Southern Leyte State University
Bachelor of Science in Computer Engineering
2020 – 2024
Sogod, Southern Leyte, Philippines
